THE TIDEWATER MG 'T' CLASSICS

THE DIPSTICK NOVEMBER 1984

President.....Vince Groover
Vice-President...Peggy Bradford
Secretary......Pat Beauter
Treasurer.....Elsie Tarr
Editor......Brenda Banvard

FROM OLE 6402

Welcome to a new "T" year, ya/11!

Thank you, Roy and Marilyn, for hosting the October meeting, and , also, to Roy for conducting club elections in such a democratic manner. (I must have missed something. ED.)

Thanks, also, go to Mel and Judy Baker for allowing their home to be invaded by the club for the Pig Roast on the 13th. Among the more than 40 people attending were the Eatons of Fairfax, the Colkers in their first-time-out 51 TD (with Brenda driving the station wagon, just in case), the Grays (Larry and Sylvia) in their first-time-ever-rained-on yellow TC, and Phil Topcik from Richmond, who arranged his drill weekend at Little Creek so he could make it, and all the in-town members, including Dave Barrows, we enjoy seeing at most gatherings.

Make note! We will have our Christmas Party on Friday, the 7th of December, so as not to conflict with the Richmond and Chesapeake Chapters' parties. Many of our and their members hold dual membership and no one wants to miss a party.

Our new Events Chairman is Mike Ash. If you wish to assist or have a recommendation for your favorite happenig, contact Mike.

See ya at the Perino's on Tuesday, the 6th. ,

Vince

DEADLINE FOR DECEMBER NEWSLETTER WEDNESDAY NOVEMBER 21

MINUTES BY PAT BEAUTER

The October meeting was hosted by Marilyn and Roy Wile . We had a few guests at the meeting who included Fellow Rhodes, Bob Burns, and, an old-new member, Dennis Duff. Fellow has acquired the "pink T". Elsie was out of town but left a report of a treasurey balance. .(Has anyone checked to see if she came back? ED.)

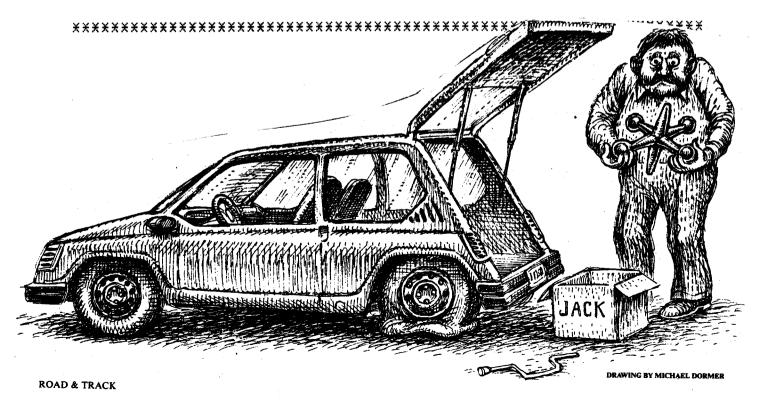

Arla and Chris of the Regalia committee, had plenty of t-shirts and knit caps with the MG logo on them. Frank Slaby introduced a can holder and a suggestion it may be used by the club in some investment type way. The Pig Roast is set for October 13, rain or shine, (and it rained, ED.), at the Baker's. Mel reported he had no calls as of October 3. The pig has been ordered. The membership roster is up to date and was distributed in last month's newsletter. We have 6 prospective members this month. The deadline for the November newsletter is October 24.

Chris Holcomb reported Shelley had a beautiful baby girl, Rebecca. Congratulations were extended to Chris.

The election of officers was held during the meeting and it seems the following officers were unanimously elected: President - Vince Groover; Vice President - Peggy Bradford; Treasurer - Elsie Tarr; Secretary - Pat Beauter. Also, Brenda Banvard will continue to be the newsletter editor. (Secretary's Note: This being my first election with the MG club, I must say that the 'Democratic' process used for nominations and voting was unique.) (Oh, so that's what Vince meant by Roy's democratic procedure. ED.)

Robert Davis arrived just in time to give his spares report. He reports he has a whole box of spares. He didn't say how large this box was. If you need any MG parts, contact Robert. The meeting was then adjourned, unanimously as usual.

REPORT ON THE PIG ROAST by Mel Baker

The effects of hurricane Josephine did little to dampen the spirits of over 40 people who attended the Pig Roast at Judy and Mel Baker's, October 13, 1984. In spite of windy and threatening weather, the event was acclaimed by many as a huge success.

It was to be a long day for Vince Groover, John German, and Mel Baker who arose early, and by 4 a.m., the aroma of a 150 lb. Porker roasting over hickory chips was drifting throughout the neighborhood.

Children enjoyed badminton, volleyball, and lawn darts, while the adults enjoyed cold brew and delicious barbecue (thanks, John and Vince.). Thanks also to those who brought a great variety of side dishes and desserts. (The recipe for that HOT picante sauce can be found later in this newsletter. ED.)

It was nice to see out-of-town quests, past club president, Ron Eaton and his wife Rosemary. Phil Topcik from Richmond was in the area for week-end reserve duty and everyone was glad to see him.

Mike Ash almost became a peg for the horseshoe game, but it was decided that he was too tall. When darkness started to fall, Roy Wiley was requested to place his hand on the peg so the players could see where to throw the horseshoes. Robert Davis came attired as an Australian Bush Soldier, which drew several comments. (I thought it was rather neat. Mel.)

The diehards began to leave around 9:00 p.m. and the unmistakeable sound of M.G.'s was heard roaring off into the night.

Judy and I really enjoyed hosting this event. The club members are a great group of people and we look forward to having everyone over for a pool party next summer. (Mike, take note. ED.)

Sweet Dreams Are Made of This Part II by P.J. O'Rourke (Playboy Guide)

Sports-car tops don't protect you from the wind, anyway. And in the rain, they're about as useful as edible underpants. The sole function of a sports-car top is to make the car look stupid.

That is presuming you could get the top unfolded and fitted into place to begin with. I couldn't. The top on a real sports car is a study in design simplicity. It simply doesn't work.

Because the top-didn't work, the MG came conveniently supplied with a tonneau cover that could be snapped on over the passenger compartment. This provided shelter from the wind and rain, but it was very hard to see out from underneath it.

The tonneau cover was great, though for drive-in movies. It could be unzipped so that it covered only the passenger seat. That way, I could get my date into the drive-in for free. But once inside, the car was too low for us to see the screen and too small and open for us to do anything else. The size and the open-air exposure of real sports cars were responsible for a remarkable persistence of virginity in many young people of the early Sixties, especially me.

But I honestly admire the simplicity of a real sports car. It lets you have a hands-on relationship with the machine. Under the hood of a modern automobile, there's nothing to be seen but a maze of electronic do-funnies. A new car can be repaired only by people who wear clip-on necties and spend all night at home-computer consoles playing canasta with the NORAD system. Not so with a sports car. All the elements of the drive train are recognizable and familiar. I understand at a glance what everthing is and how it works. Which is more than I can say for sports-car manufacturers.

^{*}Monthly winner (none)

Everyone out there who has not entered the Trivia Quiz has a very good chance of being next month's winner. We didn't have a winner this month because everyone who submitted an entry had already been a monthly winner and the rules prohibit anyone being a monthly winner twice in one year. So lets hear from all you out there. Here's your big chance. You could get all the answers wrong and still win. What a deal! There's only one more this year after this month. Bob, I had to give you credit for #87. It was truly right but definitely not the answer I was looking for. You're getting sneeky!
